Please refer to page 14 for the full range of brass and plastic taps.

The WaterWarrior is a simple greywater waste-pipe connector that attaches to your 50mm or 40mm outlet pipes. The WaterWarrior is made from a high density PVC and is UV protected. The WaterWarrior is a simple and low-tech systems that uses gravity instead of expensive pumps. The WaterWarrior is cost-effective and easy to install.

Ceiling Saver

097780

Ceiling Saver is a long term cost saving device that fits over the vacuum breakers of a geyser. Vacuum breakers are known to fail, resulting in flooding of ceilings and damages within a home. By using a Ceiling Saver the water is diverted to the outside of a home via an overflow flow pipe preventing flood damage to the interior of a home. Its recommended to install a ceiling saver over both the inflow and outflow vacuum breakers on your geyser.

Precautions for maintenance:

1. Only use soap or neutral detergents. Apply with a soft cloth or a sponge with fine nylon. Rinse with a lot of water and dry with soft cloth. Never use steel wool, glues, paints, cement or abrasive acids as it will tarnish the surface of the sink.
2. Beware of sharp edges when installing.
3. 15 year manufacturing guarantee on sinks, if the above precautions are followed strictly.

* Including waste and seal kit.
** Excluding waste and seal kit.
